(a) poor (b) wealthy (c) evil (d) bad
6. The bone of the head is called
(a) orbit (b) skull (c) femur (d) join
7. Water is a solvent which is also called
(a) gas (b) soft drink (c) liquid (d) saliva
8. The organism that depends on another organism for survival are called
(a) dependant (b) parasite (c) insects (d) mammals
9. The two major joints in the human body are joints.
(a) immovable (b) mover (c) moving (d) moves
10. and are the insects that makes insect pollination occur.
(a) Larva and pupa (b) Maggot and cockroach
(c) Bees and butterflies (d) Snail and earthworm

11. Water freezes at 32°F or 0°C and boils at
 (a) 24°C 21°C (b) 100°C or 212°F (c) 215°F 50°C (d) 112°F
12. One of the causes of erosion is
 (a) bush burning (b) pouring of chemicals
 (c) planting of cover crops (d) none of the above
13. The removal of top layer of the soil by water or wind is called
 (a) irrigation (b) drainage (c) erosion (d) wastage
14. Wastes are grouped into solid and
 (a) gas (b) water refuse (c) waste (d) liquid
15. Examples of human waste are urine and
 (a) faeces (b) saliva (c) rain water (d) body odour
16. is the unwanted sound which is released into the environment.
 (a) Air Pollution (b) Noise Pollution
 (c) Land Pollution (d) Water Pollution
17. The framework of bones in the human body is called
 (a) bone (b) joint (c) skeleton (d) skull
18. The waste water carried away through underground tunnel from the house is called
 (a) refuse (b) wastage (c) dirty (d) sewage
19. is a disease caused by contaminated water.
 (a) Ebola (b) Typhoid (c) Diabetes (d) Headaches
20. W. H. O. means
 (a) World Health Organisation (b) World House Organs
 (c) Where Home Open (d) World House Organisation

AGRICULTURAL SCIENCE

INSTRUCTION: Read thoroughly and pick the correct answer within the given alternatives.

1. regulates soil formation.
 (a) Teacher (b) Farmer (c) Climate (d) Bird
2. Perennial crops are crops that grow in year.
 (a) three or more years (b) two years (c) one year (d) eight years
3. The animals that live on land are called
 (a) aquatic animals (b) farm animals
 (c) terrestrial animals (d) water animals
4. is a place where young chickens are reared.
 (a) Hutch (b) Stable (c) Brooder (d) Sheds
5. The plant or grass that is cut, dried and given to animals as food is known as
 (a) yam (b) hay (c) weed (d) leave
6. are used to control and prevent virus-related diseases in animals.
 (a) Antibiotics (b) Chemical (c) Water (d) Oil

7. Beans belongs to what class of crops?
(a) Cereal (b) Legumes (c) Tuber (d) Vegetable
8. All these are specific needs of young animals for healthy growth except
(a) cleaning environment (b) clean water
(c) adequate medication (d) poisonous food
9. Examples of ruminant animals are these except
(a) hen (b) goat (c) sheep (d) cow
10. Cereal crops are and
(a) peanut, oat and groundnut (b) yam, onion and cocoa
(c) beans, cassava and rice (d) rice, millet and corn
11. Crops that grow and lives for one year is called
(a) annual (b) biennial (c) perennial (d) all of the above
12. These are the procedures for raising farm crops except
(a) land cleaning (b) ridge (c) fertilizing (d) sweeping
13. The crop that grows from seed to a mature plant and live for only two years are known as,
(a) annual (b) biennial crop (c) perennial crop (d) monthly crop
14. The washing away of the top soil from the earth surface is called
(a) weathering (b) drainage (c) irrigation (d) erosion
15. Which of these is required to make farm crop grow well?
(a) Weed (b) Fertilizer (c) Harvester (d) Seeding
16. A male fowl is called
(a) cock (b) hen (c) chicks (d) fowl
17. Which of these animals participate in soil formation?
(a) Cow and Goat (b) Cat and Dog (c) Earthworm and millipede (d) Rabbit and mosquitoes
18. Cattle body is covered with
(a) skin (b) feathers (c) scales (d) clothes
19. A plant that has two cotyledon leaves is called
(a) tricot (b) crop (c) dicot (d) monocot
20. Which of the farm animal can be used for transportation?
(a) Goat (b) Donkey (c) Sheep (d) Cat

HOME ECONOMICS

INSTRUCTION: Read thoroughly and pick the correct answer within the given alternatives.

1. These materials are used in making home made polish except
(a) water (b) kerosine (c) candle wax (d) palm oil
2. The agents for washing articles like clothes, plates in the home is known as
(a) palm oil (b) kerosine (c) soap (d) bowl
3. Materials needed for polishing some furniture in the classroom are . . . and
(a) brush and home made furniture polish (b) brush and some cleaning agents
(c) broom and home used cream (d) all of the above

4. Cement floor can also be referred to as
(a) terrazo floor (b) concrete floor (c) mud floor (d) wooden floor
5. floor can be easily damaged by moisture.
(a) Wooden floor (b) Cement or concrete floor (c) Terrazo floor (d) None of the above
6. The rooms in the home includes all the following except one
(a) sitting room (b) bathroom (c) bedroom (d) corridor
7. The household pests include the following except one.
(a) weavils (b) bedbugs (c) cat (d) mosquitoes
8. is a functional room in the house where we cook, prepare and serve food.
(a) Kitchen (b) Sitting room (c) Bathroom (d) Dinning room
9. These equipment are used in the kitchen except
(a) chopping board (b) chalk board (c) gas cooker (d) blender
10. To prevent unpleasant or bad odour in the home should be used to wash the floor.
(a) disinfectant (b) insecticide (c) petrol and diesel (d) stone and sand
11. Which of these food items can be prepared by using boiling method?
(a) Akara and dodo (b) Cake and buns (c) Yam and rice (d) All of the above
12. To prevent household pests, we must
(a) leave our food open (b) keep our environment clean (c) pick paper (d) bath everyday
13. These are floor surfaces in the home except
(a) water surface (b) mud surface (c) wooden surface (d) terrazo surface
14. The house flies can cause sickness
(a) malaria (b) headaches (c) cholera (d) eye problem
15. Stove, gas cooker and electric cooker should be after use.
(a) cleaned (b) spoil (c) soak (d) destroy
16. and can be cooked by using baking method.
(a) Rice and yam (b) Amala and eba (c) Cake and meat pie (d) Stew and semo
17. The clothes used in the kitchen when cooking is called
(a) dinning clothes (b) table cloth (c) ankara cloth (d) apron
18. Spoons, table knives and forks are referred to as
(a) eating spoon (b) cutlery set (c) fork set (d) cooking set
19. What common method of cooking is the best for preparing moin-moin.
(a) roasting method (b) frying method (c) baking method (d) steaming method
20. are harmful insects and rodent that are dangerous to health and causes sickness.
(a) Household pests (b) Household pets (c) Household people (d) All of the above

PHYSICAL AND HEALTH EDUCATION

INSTRUCTION: Read thoroughly and pick the correct answer within the given alternatives.

1. Marching, galloping and skipping are activities.
(a) rhythmic activities (b) basketball activities
(c) sleeping activities (d) eating activities
2. The event or sport that takes place on the field is called
(a) singing event (b) field event (c) road event (d) church event
3. One of the skills in long jump is
(a) take off (b) sleep off (c) dry off (d) close up
4. How many players play football on the field?
(a) Twenty two (b) Ten (c) Eleven (d) Five
5. In volleyball game, how many players make a team?
(a) Ten (b) Six (c) Twenty (d) Four
6. The doctor that treats teeth problem is called a
(a) lawyer (b) surgeon (c) dentist (d) teacher
7. One of the importance of school health programme is to
(a) promote and maintain health status of the pupils in our school
(b) promote fighting among pupils
(c) promote stealing in the school
(d) all of the above
8. Brushing your teeth and tongue daily helps to prevent
(a) body odour (b) mouth odour (c) nose odour (d) eye odour
9. The quick and fast action in doing something is known as
(a) agility (b) possibility (c) activity (d) motivation
10. Regular and physical exercise helps our body to be in shape.
(a) bad (b) injurious (c) good (d) not good shape
11. Sanitation is described as the
(a) burning of bush
(b) bathing regularly
(c) drinking pure water
(d) removal of waste materials from our environment to make it clean and tidy
12. 100m is classified under which events.
(a) track event (b) field event (c) running event (d) speed race
13. One of these is the full meaning of AIDS.
(a) Acquired Immunity Delicacy Syndrome
(b) Acquired Immunization Differences Syndrome
(c) Acquired Immune Deficiency Syndrome
(d) Acquired Immitation Defect Syndrome
14. Physical fitness has to do with
(a) body speed (b) body co-ordination (c) body running (d) body walking

15. How many sense organs do we have?
(a) Six (b) Seven (c) Five (d) Eight
16. All these are examples of local dances in South Western Nigeria except
(a) Bata dance (b) Apala dance (c) Dundun dance (d) Koroso dance
17. The popular musical instrument used in the local dances are and
(a) talking drum and gong (b) flute and trumpet (c) guitar and piano (d) band set
18. The example of the animal that produces rhythmic sound is
(a) rat (b) mosquito (c) elephant (d) gecko
19. To perform the run-up in the long jump the athlete assumes a start.
(a) sitting (b) sleeping (c) eating (d) standing
20. and are basic gymnastic activities.
(a) Dancing and clapping (b) Single stunt and bent knee
(c) Exercise and eating (d) Football and basket ball

COMPUTER STUDIES

INSTRUCTION:: Read thoroughly and pick the correct answer within the given alternatives.

1. The mouse is an device.
(a) output (b) input (c) point (d) processing
2. Double clicking is used for opening a document or a program.
(a) False (b) True (c) Maybe (d) I don't know
3. An electronic machine that accepts data as input, process data and gives out information is known as
(a) computer (b) data (c) paper (d) CPU
4. The type of computer that is used for both counting and measuring is the computer.
(a) analog (b) digital (c) hybrid (d) drigy
5. Computer can be classified by type, size, generation and
(a) machine (b) mainframe (c) micro (d) purpose
6. The two components of the computer system are and
(a) Software and Systemware (b) Hardware and Systemware
(c) Hardware and software (d) Application and Software
7. is a set of instructions that tells the computer hardware what to do and how to do it.
(a) Hardware (b) Users (c) Software (d) System Unit
8. deletes character to the left when pressed.
(a) Capslock key (b) Backspace key (c) Function keys (d) Return key
9. The name of the devices used for playing computer game are keyboard, mouse and
(a) joystick (b) scrabble (c) chess (d) drumset
10. We can take care of our computer system by keeping the environment

- (a) dry (b) wet (c) dirty (d) clean
11. The smallest type of computers is known as
 (a) mini computers (b) mainframe computers
 (c) micro computers (d) super computers
12. is a physical part of computer system that can be seen, felt or touched.
 (a) Hardware (b) Software (c) Users (d) People ware
13. Icons are the pictures found on the computer.
 (a) Main top (b) Mouse (c) Keyboard (d) Desktop
14. In microsoft word tools bar 'U' stands for
 (a) under group (b) underline (c) under (d) undo
15. Application software and are the two types of computer software.
 (a) mouse (b) monitor (c) system software (d) utility software
16. The following are the reasons to care for the computer except
 (a) to avoid damages to the system (b) to protect the system
 (c) to make the memory lost (d) to make the user comfortable
17. Should the computer room be overcrowded?
 (a) Yes (b) No (c) Maybe (d) Often
18. URL means
 (a) Uniform Research Limited (b) United Radio Life
 (c) Universal Resource Locator (d) Union Radio Life
19. is used for solving differential equations.
 (a) Mathematical set (b) Castle clock (c) Differential analyzer (d) Calculator
20. A digital computer is used for
 (a) reading (b) counting (c) listening (d) dancing
